BerryAlloc High-Tech Laminate

BerryAlloc High-Tech Laminate is the world's strongest and most durable laminate floor. Combining beautiful aesthetics and exceptional technical performance, BerryAlloc High-Tech Laminate is suitable for use in **high-traffic areas** such as hotels, restaurants, shops, offices and yes, even airport terminals. Its **unique high pressure** surface offers customers a floor with guaranteed long-term performance and outstanding resistance to water, wear, fading and stains. BerryAlloc's High-Tech Laminate comes with our **unique aluminium locking system**, the strongest in the industry. These unique qualities, together with a wide choice of colours in a variety of surface finishes, make BerryAlloc High-Tech Laminate the floor of choice worldwide.

BerryAlloc also offers you wonderful laminate for residential use, wall panels for use in kitchens and bathrooms, a complete parquet flooring range and extraordinary click vinyl flooring, each with accompanying accessories.

Thanks to our excellent quality, our innovative range and exceptional service, the BerryAlloc Group has grown into an international player and highly rated interior and decoration specialist for both residential and commercial projects.

BerryAlloc is about providing you with the best of the best in a greener and more sustainable way. This particular passion influences both our philosophy and our actions.

You can find more information about the full BerryAlloc product range at www.berryalloc.com

Why choose BerryAlloc High-Tech Laminate?

Strength and Resistance

What makes High-Tech Laminate unique is the ultra strong and patented aluminium locking system that ensures a strong and tight joint, effortlessly standing up to heavy weights and high traffic. Installation is child's play thanks to this unique locking system.

The aluminium lock has a joint strength of 1200 kg per linear metre on the long side, much more than fibre locking systems of competitors. BerryAlloc High-Tech Laminate creates very durable floors for public areas and commercial projects. We are so confident our floors will last we offer lifetime guarantee on residential projects and a ten-year guarantee on commercial installations.

What makes High-Tech Laminate unique
is the ultra strong and patented
aluminium locking system.

Colour and Design for any site

In addition to its unsurpassed lock strength, the floor also has to be aesthetically pleasing - especially if it is going to last as long as BerryAlloc High-Tech Laminate. Our High-Tech Laminate range includes more than 100 colours and a variety of surface finishes to suit any preference. In addition to the standard formats we also offer planks which are extra wide or narrow.

BerryAlloc SilentSystem

BerryAlloc's High-Tech Laminate range comes with SilentSystem - a unique sound-absorbing underlay which comes pre-attached to the back of the individual planks. As well as making the floor more comfortable to walk on, SilentSystem significantly reduces the transfer of walking and impact noises to adjacent rooms. Noise within the room is also reduced considerably.

Top quality manufacture

BerryAlloc High-Tech Laminate is manufactured in accordance with internationally approved standards. The strong and durable top layer is pressed separately before being glued to the core material. This process creates a plank which is stronger than conventional laminate floors on the market, enabling the surface to resist extreme wear and tear.

Water and moisture resistant

The core material of BerryAlloc High-Tech Laminate is our unique AquaResist HDF board which reduces moisture absorption to an absolute minimum. The edges of our planks are sealed to prevent moisture penetration.

BerryAlloc takes the environment seriously

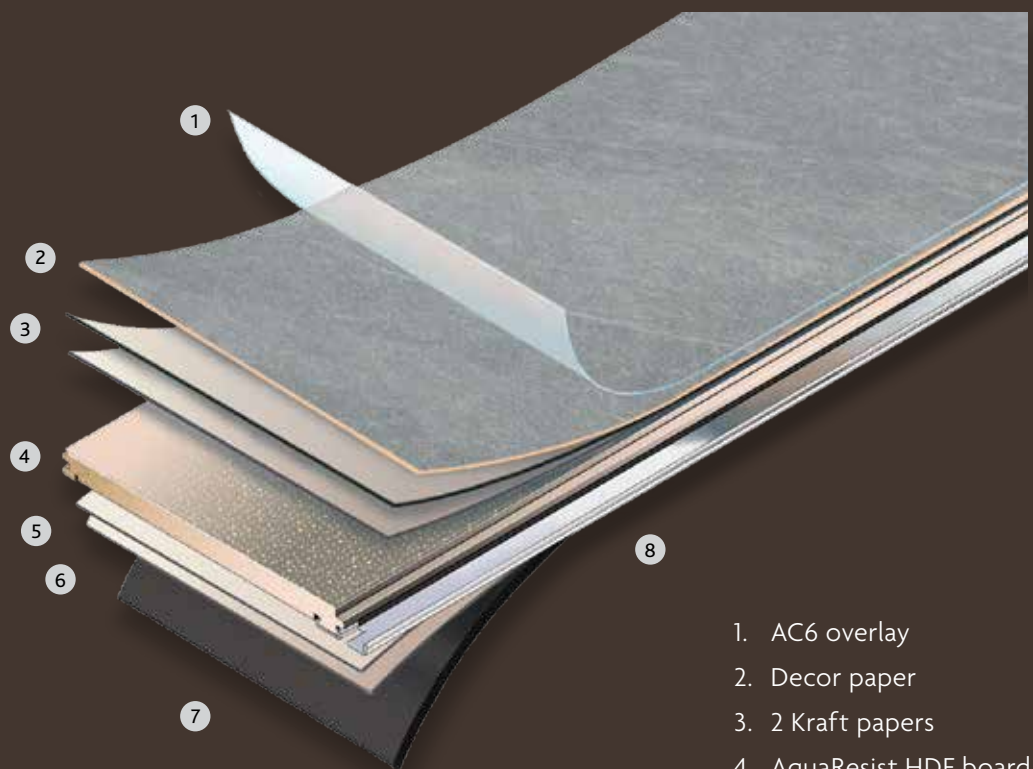

This is shown in the choice of raw materials, partners, transportation and manufacturing processes. Our selection of raw materials is made based on a combination of our customers' requirements for product quality and demands for minimal environmental impact. Suppliers are chosen based on their ability to live up to our way of thinking. We also set a requirement that our providers evolve in the same direction and that they are certified in accordance with ISO 14001. Our High-Tech Laminate is made of natural and synthetic materials.

This collection is FSC (Forest Stewardship Council) certified and helps promoting the responsible management of forests worldwide.

Why is our High-Tech Laminate so unique?

1. AC6 overlay
2. Decor paper
3. 2 Kraft papers
4. AquaResist HDF board
5. Impregnated edges
6. Counterbalance paper
7. SilentSystem
8. AluminiumLOC

BERRY  ALLOC®
HIGH-TECH LAMINATE

Extra Strong

Under pressure

BerryAlloc's Stone range is extremely durable thanks to its high pressure surface. Its class 34 (AC6) rating ensures much higher wear and impact resistance is much higher than other laminate floors. It can also withstand moisture, most acids and alkaline solutions, lit cigarettes and high-impact blows. It is also very resistant to scratches, especially in high traffic areas.

Accoustic & noise reduction

Exceptional Sound Absorption

Sooooo quiet

The BerryAlloc SilentSystem is a sound-absorbing underlay which is attached to the back of our High-Tech Laminate planks. SilentSystem typically decreases noise in a room by 19 decibels. The result is a quieter room and a significant reduction in noise transmission within the building.

BerryAlloc's SilentSystem also helps to make the floor more comfortable to walk on. This is an important consideration in commercial spaces such as showrooms where sales staff may be on their feet for much of the day.

SilentSystem underlay is attached
to the back of each plank.

Super Fast Installation

Work less, enjoy more

Our patented ultra-strong aluminium locking system combined with the Best Loc® X-Treme on the short side will help you save up to 30% on the time needed to install the floor. Our locking system's unequalled strength ensures a tight and unbreakable joint.

Installing our durable floors is a cinch and they will effortlessly withstand both the busiest traffic and the heaviest weights.

High-Tech Laminate with an aluminium lock for a superfast installation.

Wherever. Forever.

BerryAlloc High-Tech Laminate

Lifetime Warranty

We are so convinced about the quality of our laminate that we are pleased to include a **lifetime warranty for residential installations** of BerryAlloc High-Tech Laminate. In **commercial installations** we offer a **10-year warranty** on our Stone collection.

The BerryAlloc High-Tech Laminate warranty covers:

- Fading
- Joint integrity
- Stain resistance
- Water resistance
- Wear damage

Want to learn more? You will find everything you need to know in the insert in the carton, or on our webpage www.berryalloc.com, where you will also find our installation videos.
