Domestic

Class 32

BerryAlloc **Laminate**

Wherever. Forever.

BerryAlloc quality
superior strength and durability.

Why is our Domestic collection so unique?

Strength and Resistance

Our ultra strong and patented aluminium locking system ensures a strong and tight joint, effortlessly standing up to heavy weights and high traffic.

BerryAlloc SilentSystem

BerryAlloc's High-Tech Laminate range comes with SilentSystem - a unique sound-absorbing underlay which comes pre-attached to the back of the individual planks. As well as making the floor more comfortable to walk on, SilentSystem significantly reduces the transfer of walking and impact noises to adjacent rooms. Noise within the room is also reduced considerably.

AquaResist

The core material of BerryAlloc High-Tech Laminate is our unique AquaResist HDF board which reduces moisture absorption to an absolute minimum. The edges of our planks are sealed to prevent moisture penetration.

Life time guarantee residential

We are so convinced about the quality of our laminate that we are pleased to include a lifetime warranty for residential installations of BerryAlloc Laminate.

Environment

This is shown in the choice of raw materials, partners, transportation and manufacturing processes. Our selection of raw materials is made based on a combination of our customers' requirements for product quality and demands for minimal environmental impact. Suppliers are chosen based on their ability to live up to our way of thinking. We also set a requirement that our providers evolve in the same direction and that they are certified in accordance with ISO 14001. Our High-Tech Laminate is made of natural and synthetic materials.
